

Men's League Captains:

Every year, the Ladies League members donate funds from their Treasury to certain course or clubhouse needs. This year their donation is funding the purchase of our flags with new logos.

In the past, our Men's League Team fees have been used to fund Dustin's weekly work to compile league wins, losses and stats plus also fund general course operating expenses. We haven't had an increase in Men's fees for quite some time so commensurate with other fee increases, this year we increased team fees from \$240 to \$300.

But that increase is just an increase that is well overdue. I'd also like to suggest that each member of a team voluntarily donate an extra 10 bucks to combine with the ladies donated funds all of which can be used to fund another course project. We have many that we can't all fund through dues and greens fee alone. Extra donations are always needed and appreciated.

So I'm asking each team to submit not just the \$300 team fee, but an extra 60 bucks (a total of \$360). The extra \$60 is totally voluntary. If you don't think each team member can afford an extra 10 bucks, that's fine. But if you captains can send \$360, the extra 60 bucks will be segregated on our books and be used for a needy course project during the year.

Last year's humble Men's League winners, Smith & Strege People, will be sending in \$360 and we challenge every other team to do the same.

Thank you.

Fred Strege
